

KYND partnership explained

DUAL Cyber Insurance: Additional policy benefits

Expert-driven tools designed to help you understand and strengthen your cyber resilience.

As part of DUAL's commitment to helping insureds proactively manage their cyber risk, we've partnered with KYND, a leading cyber risk technology provider. All DUAL Cyber Insurance policies include access to KYND's cyber risk assessment and monitoring tools, designed to enhance cyber resilience and support risk mitigation. These benefits are automatically included for policies quoted via our WebRater, and for policies quoted through our Specialty Underwriters, they are available upon request.

KYND

KYND services explained

1. KYND Signals Report

Pre-inception cyber risk assessment report

Prior to the commencement of the insurance period, the insured is entitled to access a **KYND Signals Report**. This report is generated through a non-intrusive scan of the insured's registered domain which is provided as part of the quotation.

The report includes:

- A summary of identified cyber risks across over 250 indicators.
- A colour-coded risk rating system so that insureds can prioritise remediation efforts:
 - **Red – High risk:** immediate action recommended.
 - **Amber – Moderate risk:** advisable to address.
 - **Green – Low risk:** no action required.

2. KYND ON

Continuous cyber risk monitoring

During the insurance period, the insured will be given access to KYND ON, a cyber risk monitoring platform that provides the insured with ongoing visibility into their potential cyber exposure. Access to the KYND ON platform includes the following:

- Continuous monitoring of over 250 cyber risk indicators.
- Receive real-time alerts for emerging threats like the hosting of phishing and malware, as well as vulnerabilities that could lead to data breaches.
- Internal security reviews via a structured questionnaire.
- Access to KYND's cyber advisory team for support and guidance.

Get a quote fast and easy with WebRater

To access these additional Cyber policy benefits, we offer a simple and straightforward method of obtaining cyber insurance terms through our online WebRater portal for organisations with revenues of up to \$100m, and for limits up to \$5m.

We understand that every business is exposed to cyber risk, so we now have over 900 occupations available through the WebRater.

Need support?

For further details on our Cyber product or additional services, please see below for how to access:

Service/Team	How to access

WebRater Help Centre	Visit the Cyber section for helpful resources

Important notice

Access to KYND services is provided for informational and risk management purposes only. These services are intended to assist the insured in identifying vulnerabilities that may lead to a cyber incident or loss. They do not replace the Insured's own cybersecurity due diligence or professional advice. Use of KYND services does not constitute a guarantee of coverage under the cyber insurance policy, and it does not ensure that all risks or vulnerabilities will be identified.
